FOR IMMEDIATE RELEASE

SST GROUP & INTUITIVE IMAGING INFORMATICS PARTNER ON DOSE TRACKING

SST Group, Inc., a leading provider of DICOM distribution solutions in the United States, is excited to announce its new partnership with Intuitive Imaging Informatics, LLC, which allows Intuitive to sell SST Group's best-of-class dose monitoring software, Radiation Dose Monitor (RDM™).

RDM collects, controls, analyzes and optimizes radiation doses delivered to patients during medical imaging and interventional procedures by storing and managing radiation dose data both for current and historical procedures. "What sets RDM apart from other dose monitoring products is that it acquires, stores and analyzes data directly from the modality, presenting a more accurate dose estimate," says Richard Murphy, SST Group President. "This allows medical professionals complete control of the dose with instant access to history as well as real-time monitoring and alerts."

RDM has achieved success in Central Europe by going beyond the industry requirements and providing a complete history of an institution's population for all diagnostic, interventional and image-guided surgical ionizing events. This additional information allows a facility to see the entire picture on a patient's dosage history, based on anatomical region, in addition to what is sent to PACS.

"This partnership gives us the ability to help control radiation exposure to patients at our client's facilities," says Intuitive Imaging President, J. Martin Pfaff, PhD. "RDM is a great fit to our ImageQube portfolio."

About SST Group

Based in the heart of Silicon Valley, [SST Group](http://www.sstgroup-inc.com) has been an innovative leader in DICOM image delivery and management since 2004. Products range from simple data storage to specialized DICOM medical solutions, including image delivery systems, DICOM utilities and software designed to share images within PACS systems. SST solutions are used in over 2,500 hospitals and private clinics worldwide. For more information, visit www.sstgroup-inc.com.

About Intuitive Imaging Informatics

One of the pioneers of digital imaging, Los Angeles-based [Intuitive Imaging Informatics, LLC \(I3\)](http://www.intuitivemaging.com), has been in business for 25 years. We offer a complete, integrated medical imaging solution comprised of our ImageQube PACS, medical archives and RIS interface. A privately-held, American-owned company, I3 offers affordability, scalability and customization to its clients. Intuitive Imaging's technologies have been used in hundreds of facilities nationwide. For more information, visit www.intuitivemaging.com.
