

DICOM PACS/EMR

DMC - EZ DICOM Print to PACS

DMC-EZ DICOM Print to PACS appears as a printer selection in your printer dialog box. Simply select that option as you would with any other Windows printer. Medical information in various formats – Microsoft Word® documents, PDFs, reports, emails, EHR/EMR and RIS, and more can now be shared within your organization through your PACS. DMC-EZ DICOM Print to PACS lets you send any document or image from a Windows® PC to your PACS. Eliminate paper and improve workflow by providing expanded access to important clinical information via PACS.

DMC-EZ DICOM Print to Pacs

- Simple, easy to use interface
